1 View of Ecclesiastical East = Geographical South

Arch with cross beam. Cross above beam. Drop-down projection screen below beam.

Storage space created behind arch in space where organ pipes were.

Digital organ console to go in south west corner with four speakers high up at top of vertical wall and a sub-bass woofer in the south east corner.

Small dais for Communion Table and Elders' and Minister's chair and lectern(s).

2 View of North End of Worship Area

Partition to full height of building, glass at top to let light pass in both direction, central glass doors with glass side panels. Central and side aisles with aisle at back.

Maximum seating of 60 due to fire safety issues but can be increased if “fire warden” on stand-by.

Note large area of level floor.

3 Ground Floor North End looking west

Door to Servery with serving hatches on either side - doors and hatch doors are designed to minimise intrusion into Welcome Area when open.

Servery walls and ceiling fire-proofed to 30 min.

Door to Worship Area visible on left with glass side panel.

4 Ground Floor North End looking east

Shows door to outside on far left, door to Accessible Toilet centre left, doors to fire-proof cupboards under stairs centre right and staircase to Upstairs Room on right.

5 Upstairs room

Door at top of stairs on left, door to toilet in centre (to meet Safeguarding requirements)

Glass panels to Worship Area with solid modesty panel

Space for Conference table and chairs seating eight

Comfortable chairs for less formal meetings.

Coffee corner
